

1st Course, 5th Class

Wednesday, February 13

1. Homework: Similar to the previous weeks.

2. In the last 3 classes in this course, the 6th, 7th, and 8th classes, we cover details not covered in class, like meanings of vibrations up to 32, and we work with the ideas. In the last 3 classes I will not be introducing very many new ideas.

3. What vibrations do we look at?

Why is $32 = 8 \times 4$ rather than 16×2 ?

4. Is $1/33$ and $8/33$ different?

5. What is a "strong harmonic"?

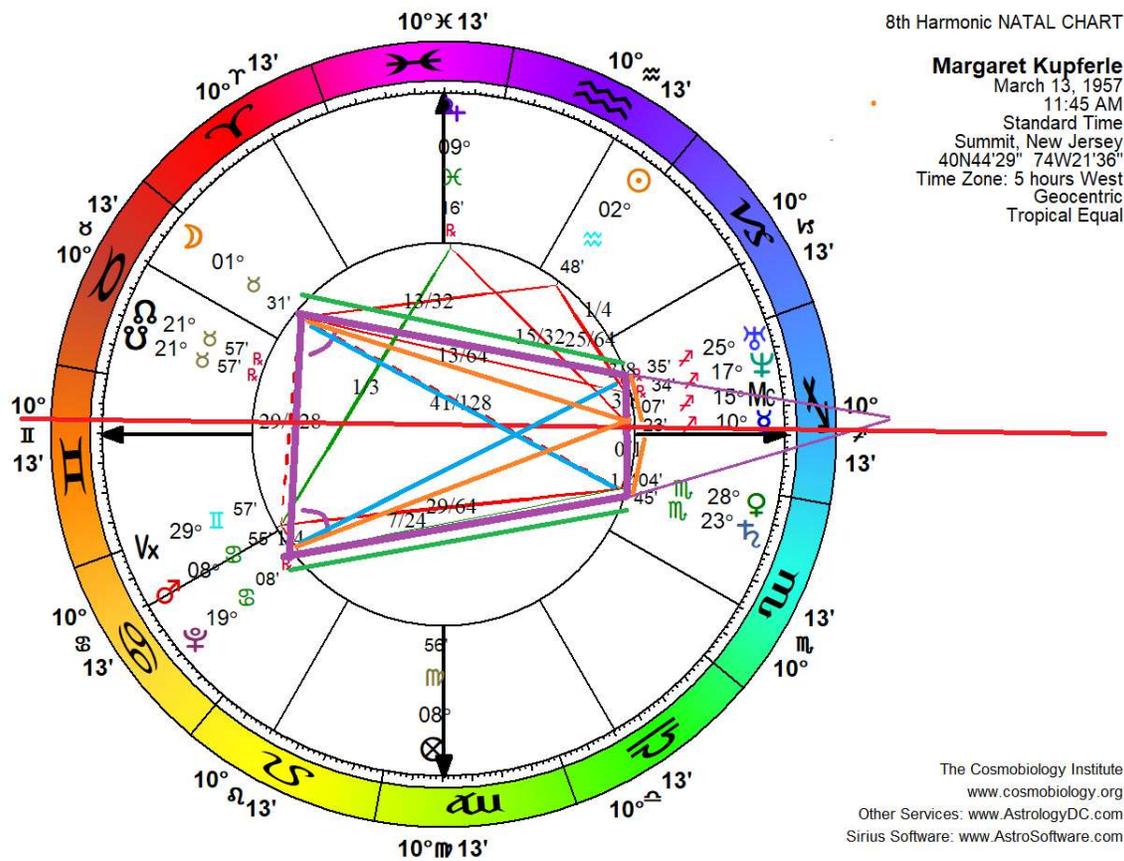

"Strong harmonic" is not the most important thing. The most important thing is how energy is trying to flow in the strongest harmonics.

The basic procedure is to look at the thickest aspect lines and put the emphasis on them and start with them, and then work your way to the thinner lines.

6. Prime numbers vs. composite numbers.

7. Over the past year it is becoming increasingly clear that lower vibrations are very fundamental vibrations for anything to exist and higher vibrations are more specific functions that are built on the assumption that lower vibrations exist.

8. Midpoint Structures, Isotrap and Arabic Parts

Yes, going to higher octave gives you more inner data that you don't see otherwise, i

Moon: Past and emotion, Sun the light and the self, Uranus spontaneity, Pluto bringing hidden things to the open. This means that once Will feel it is the right thing to do in his heart, it is very clear to him that he will go for it without any hesitation. He does not procrastinate. It is a very impulsive nature of him. Once he knew and feel it is what he wants and loves to do, there is no going back, he will do it for sure

Moon at Saturn Pluto is very hard to handle. It needs getting used to adjusting to an environment that she is into. A retreat to a quiet place will heal and relax this energy,

On this midpoint tree, it tells me that the MOON is super strong in her chart. It is in the middle of everything that she does

13:00:01 From Fei to Everyone:

She likes to have fun as well but there is this thing in his heart and mind. It is almost like the character of the Fiddler on the Roof guy.
